- Alaskan Resident
 - The resident bag and possession limit is three king salmon 28 inches or greater in length.
- Nonresident
 - The nonresident bag and possession limit is one king salmon 28 inches or greater in length; except during May 2011 when the bag and possession limit is two king salmon 28 inches or greater in length;
 - The nonresident annual limit is five king salmon 28 inches or greater in length.

The Southeast Alaska king salmon sport fishery is managed under the directives of the Southeast Alaska King Salmon Management Plan (5 AAC 47.055). This plan prescribes management measures implemented by the department for the king salmon sport fishery based upon the preseason abundance index determined by the Chinook Technical Committee of the Pacific Salmon Commission. The preseason abundance index for the 2011 season is 1.69 which equates to 54,515 king salmon allocated to the sport fishery. The Southeast Alaska King Salmon Management Plan prescribes that the regulations listed above be implemented when the king salmon abundance index is 1.51 to 1.75.
